

ZEN TILES

Dawn Graphite Cement

Range Description

Still. Soft. Sure. Graphite Cement brings a gentle blue tone-muted and mineral, like light passing through water. Its matt surface holds just enough texture to feel grounded, while the colour stays calm and clear. Understated, but quietly confident. It offers colour without noise. Presence without weight. Dawn Graphite Cement works beautifully in spaces that seek a sense of air and quiet. Pair it with pale woods, off-white walls, and brushed metal details for a look that feels open and thoughtful. In bathrooms, it brings freshness without chill. In kitchens or living areas, it offers calm continuity across walls and floors. Let the layout stay simple. Let the light do the work. Let Dawn Graphite Cement hold the room, gently.
