

Neptune - Frosted Glacier

Product Description

Our Neptune range is a soft, luxurious, and durable carpet, that is sure to add a touch of class to your home. Expertly constructed with ECONYL® regenerated nylon, a yarn made from recycled waste material such as old carpets and abandoned fishing nets collected from the bottom of the sea. Neptune thus helps to save thousands of beautiful sea creatures like sea turtles, dolphins, and seals who will no longer get stuck in this life-threatening waste. The Neptune range is made with an ECO FusionBac textile backing made from 100% recycled PET plastic bottles, providing excellent durability and adding to the soft feel underfoot. Complete with a generous 20 year wear warranty, so you can relax in the knowledge that your carpet is covered from potential damage
