Classic Natural Oak

Classic Natural Oak is a classic blend of light brown hues with a variety of character features.Brushed and oiled engineered wood flooring combines natural beauty with enhanced durability. The brushed finish creates texture, giving the wood a rustic, authentic look while helping to conceal scratches and wear. The oil treatment nourishes the wood, enhancing its color and grain while providing a more natural, matte finish compared to lacquered floors. This finish offers excellent protection against moisture and dirt, but with a more breathable, natural feel. Character grade engineered wood flooring showcases a balance of natural imperfections, including knots, grain variations, and color differences. This grade offers an authentic yet refined look, combining the charm of imperfections with a more structured aesthetic.
